Kindness to animals

[Forward this message to a friend](#)

June 2015

AKI always sends 100% of your donations to c

For most of you, it may not be cold, but in Namibia, a downright CHILLY. Where's a dog to go to get out of the cold and warm? If you're Rex, you'll curl up in your very own dog house. Have A Heart-Namibia and Animal-Kind International.

Rex gets a dog house!

When Geesche (HAH) and Dr. Maya 1st met Rex, he was a skinny 5 month old pup with mange. With HAH's help (thanks to AKI supporters!), he became healthier, was vaccinated, neutered, and then HAH gave Rex and his family an HAH-AKI dog house (picture right). When Geesche checked to see if Rex was using the house, he growled at her—he was protecting his territory! **Rex's family is so grateful and the son and Rex are best friends. The son is proud of their dog, he's big, healthy, happy—and**

reflects well on the family!

AKI's HAH project is still on the GlobalGiving site, but can get a permanent place on GG (and all the benefit membership confers). Please read more about our GG our GG goal! **(If you'd like to know more about th are trying so hard to gain a permanent spot on t me an email message at Karen@animal-kind.org**

\$50 buys 1 dog house made by a local carpenter

\$30 will spay or neuter 1 dog or cat

\$10 buys a large bag of dog food and a blanket

AKI donors-you are helping so many of and their dogs & cats who have no one support!

With fewer than 1000 people, Aus is a small town in Namibia, 124 km east of Luderitz. It has no vet or SPCA, but lots of dogs and cats. Jackals is the senior dog of Aus. Before HAH-Luderitz showed up, his family had no help for Jackals, who's blind and suffers from the usual aches and pains of old age. His family loves him so much, they were one of the first on line at the first SpayDay in Aus (AKI supporters made that SpayDay

possible!) When Dr. Maya checked Jackals and gave him the "ok" for the neuter operation, Jackals shed happy tears (Jackals is in the picture on his mom's lap). Dr. Baines found a huge abscess in his "private parts." Dr. Baines probably already struggled for a while with some pair removed and cleaned and he's now pain-free

Jackals visits HAH!

In May, HAH held their second SpayDay in Aus and Jackals and his family came to visit. As you can see in this picture, he's doing great (just a bit overweight). His family is grateful for HAH's help!

To ensure we can continue to provide spay/neuter and other vet care to parts of Namibia that never had these services before, please go to the AKI website, where you can read so many more stories like this one, and securely donate:

Jackals' family also cares for little Flo, a dog left behind

Flo!

Flo was left behind when her owner moved away. When she showed up at their house, Jackals' family started

feeding her. During the May SpayDay in Aus, Jackals' owner brought Flo and during the operation Dr. Baines noticed that she had a badly inflamed uterus. She also had lots of pain and the operation saved her life. Again, just like with Jackals, Flo would have suffered without any hope of getting care if it wasn't for HAH and AKI supporters!

After Flo woke up, Christiaan, who volunteers for the with his cousin so she could recover safely. An hour later up to take Flo home. They were a little upset that she lives with them and Jackals). Geesche said, "It was all started with pain and being homeless and ended with

Ghana SPCA goes where no humane education before!

June 21 was the kick off humane education lesson for the newest Ghana SPCA school, Kukuruzua JHS, in Zebilla in the Upper East Region of Ghana. John Apam, humane education and science teacher, jumped right in and started teaching the lesson (see photo) after Aluizah's introduction to animal welfare and HE. It's a huge class--over 70 students. And as always, GSPCA makes sure every student gets an animal welfare manual, but as of now, they only have 30

manuals for this class. As you can see from the picture that number! **At \$3 each, a donation of \$15 will cost your friends to donate \$15 each, and we'll be at the Kukuruzua JHS humane ed class a manual!**
