March 2015

Kindness to animals has no boundaries

AKI works with organizations in Uganda, Tanzania, South Sudan, Malawi, Ghana, Bosnia, Armenia, Jamaica, Honduras, and Suriname. AKI sends 100% of your donations to our partner organizations.

[Forward this message to a friend](#)

As promised, we're getting information to you on just what your donation accomplishing. Read below about Tortoise the dog at Uganda SPCA's Haven just one of many dogs and cats helped weekly by Haven staff, thanks to AKI funding. You can also read about Picolina, a dog in Honduras, that our wonderful Helping Hands for Hounds of Honduras partner went above and beyond to help--and was able to because of AKI donors. But first, let me tell you about a donkey named Harry.

Please name a donkey after my best friend, Harry

Along with a \$25 donation, I received a request from Alicia, age 11, to name a donkey after Harry.

Of course we will do that!

With our last disbursement to TAWESO, they were able to help 654 donkeys, including this one. Alicia,

meet Harry the donkey.

You can read about the work TAWESO does for donkeys at the below link; you can also make sure TAWESO has enough funds to hold an donkey clinic; and if you'd like to give a gift and name a donkey-let us know

AKI....helping where help is needed most.....Honduras

Because Pilar is known far and wide in Tegucigalpa, people are always calling her to help injured and mistreated dogs and cats, birds, and other wildlife. **Here's just one example of how Pilar's assistance and funds from AKI made all the difference in the life of a dog.**

Enma, a cleaner at UNAH's natural history museum contacted Pilar about a 2-month old puppy thrown out like trash, who had mange and was skin and bones. Pilar told Enma that if

she rescued the dog, Pilar would help with costs. **Ernma, who is mom to another rescue dog, took the puppy home, named her Picolina, Pilar managed her mange meds and antibiotics-supplied with AKI funding, and when Picolina was 6 months old, she was spayed-also thanks to AKI donors** (the picture is of Ernma and Picolina just after her sutures were removed).

After Ernma's neighbors saw the transformation in Picolina, and how little care goes a long way, they asked Pilar to help their dogs who have mange! Good care is contagious.

In Honduras, about 60% of the population lives under the poverty line, yet dog and cat ownership is growing in popularity. Along with that growth, come breeders and dog fighters. Please support HHHH and people like Ernma, who care for the mixed breeds, the unwanted dogs and cats--with our help, they'll thrive!

Tortoise: slowly but surely getting back to health!

The USPCA Haven staff are called to rescue dogs and cats all over Kampala, sometimes as far as Entebbe, Jinja, and

even beyond. **Responding to these rescue calls are some of the most important things that the USPCA does--not only do they save dogs and cats, the USPCA's Alex and Henry also use these opportunities to educate communities about animals.**

Take Tortoise, who was rescued in Mukono--the people in the community wanted to kill her because of her skin condition, which they thought was dangerous. It was just mange (see picture below of her 1st day at the USPCA Haven), and certainly posed no danger to human population. **AKI funds covered her rescue and rehabilitation health** (picture above). Rescue calls give the USPCA a chance to educate and let them know what the USPCA does, and they save lives!

Do you want to have a REAL impact on the lives of dogs and cats? Without your funding, the USPCA wouldn't be able to go on each and every rescue call that comes in--your donation matters!

To pay for 1 to 2 typical days of rescue transport =US\$20

To pay for 2 weeks of typical rescue transport =US\$120

To pay for one month of typical rescue transport =US\$240

To prevent unwanted births (and minimize the need for rescue cal

One spay of a cat or dog =US\$50

One neuter of a cat or dog =US\$35

AS ALWAYS, THE USPCA AND AKI ARE GRATEFUL FOR ALL YOUR SUPPORT.
HAVEN WOULD NOT BE ABLE TO OPERATE--AND BE SO EFFECTIVE--WITH
YOU!

TORTOISE UPON HER ARRIVAL AT THE HAVEN

Please check out our beautiful new homepage, our new FAQs (let me know there's something I should include that I haven't), new entries on our "In of" page and on "Our Supporters" page, and our AKI 2014 annual report. several updates on our partner organizations' pages too; start here, and take a look around!

<http://www.animal-kind.org/index.html>

As always, we are so grateful for your help-without it, our partner organizations wouldn't be able to rescue so many animals, provide spay/neuter and other care, keep their shelters in tip top shape, and buy supplies and pet food (

the Animals-Armenia did with our last disbursement--see picture below--t last about 2-3 months). THANK YOU!

Karen Menczer &
the AKI Board
